JuristAI × Autonomous

Your Analytics & Tracking Implementation

Google Tag Manager · GA4 · PostHog · Video & Funnel Analytics

YOUR INVESTMENT

$4,000 USD

PREPARED FOR	PREPARED BY	DATE	VALID FOR
Jurist AI	Autonomous Technology Inc.	March 14, 2026	30 Days

YOUR ENGAGEMENT

What's included in your build

Jurist AI needs a reliable, unified analytics foundation — one where every meaningful user interaction is captured, attributed correctly, and available for analysis. This engagement sets up Google Tag Manager as the single tracking layer, migrates GA4 into it, layers in PostHog for product analytics and video behaviour, and builds the funnel visibility needed to make confident, data-driven decisions.

YOUR SCOPE OF WORK

01 **GTM Container Setup & Configuration**
Create and configure a GTM container with proper workspace structure, naming conventions, and a clean variable/trigger architecture built to scale.

02 **GA4 Migration to GTM**
Move the existing GA4 implementation from direct page snippet into GTM. Validate data continuity — no gaps, no double-counting on cutover.

03 **PostHog Setup + Video Tracking**
Install PostHog via GTM, configure session recording, and implement video engagement tracking (play, pause, % watched, completion events).

04 **Custom Event Taxonomy — Collaborative**
Work with the Jurist AI team over 1–2 weeks to define the events that matter, then build and validate each one in GA4 and PostHog via GTM.

05 **3 Conversion Funnels**
Build a minimum of 3 funnels in PostHog and/or GA4 based on the highest-priority user journeys identified during the event taxonomy phase.

06 **CRO Optimization Consulting**
Review funnel data and user behaviour to identify conversion bottlenecks. Deliver prioritized recommendations across UX, copy, and flow — with clear rationale tied to the data.

WHAT YOU'LL RECEIVE

Your deliverables

GTM Container (Published)

A clean, production-ready GTM container with documented tags, triggers, and variables. Handed off with full access.

GA4 via GTM (Validated)

GA4 migrated and firing through GTM. Verified in DebugView with confirmed data continuity from day of cutover.

PostHog Implementation

PostHog installed via GTM with session recording active and video tracking events live and verified.

Custom Event Library

All agreed events built and documented — name, trigger, parameters, expected values — in a shared event dictionary.

3 Conversion Funnels

Minimum 3 funnels built and verified. Funnel definitions documented with step logic and drop-off visibility.

Handoff Documentation

A short reference doc covering the implementation and how to add future events. No black boxes.

CRO Recommendations Report

Prioritized conversion opportunities tied to real funnel data — UX, copy, and flow improvements with clear rationale.

YOUR TIMELINE

PHASE 1

Foundation

Week 1 — GTM setup, GA4 migration, PostHog install + video tracking live

PHASE 2

Events & Funnels

Weeks 1–2 — Collaborative event definition, builds in GA4 + PostHog via GTM, funnel construction

PHASE 3

Validation & Handoff

Week 2 — QA, documentation, walkthrough call

YOUR INVESTMENT

$4,000 USD — flat fee

WHAT YOU'RE GETTING	DESCRIPTION	AMOUNT
GTM Setup & GA4 Migration	Container config, GA4 migration, data validation	Included
PostHog + Video Tracking	Installation, session recording, video engagement events	Included
Custom Event Builds	Collaborative taxonomy + implementation in GA4 & PostHog via GTM	Included
3 Conversion Funnels	Built and documented in PostHog / GA4	Included
Handoff Documentation	Event dictionary + implementation reference doc	Included
CRO Consulting	Funnel analysis, bottleneck identification, prioritized recommendations report	Included
Total		**$4,000 USD**

YOUR PAYMENT SCHEDULE

DEPOSIT · DUE ON SIGNING

$2,000

Paid before work begins

FINAL PAYMENT · DUE ON DELIVERY

$2,000

Due on completion & handoff

TERMS & CONDITIONS

INTELLECTUAL PROPERTY

All work product, configurations, and documentation become property of Jurist AI upon receipt of final payment.

OUT OF SCOPE

Ad platform pixel setup, server-side tracking, platform migrations, and any work beyond the defined scope require a separate agreement.

CHANGES & REVISIONS

Changes to agreed event definitions or funnel logic after build commencement may be subject to additional fees at $150/hr.

TERMS & CONDITIONS

What you need to know

INTELLECTUAL PROPERTY

Everything built becomes yours upon receipt of final payment. Full access handed off — no strings attached.

OUT OF SCOPE

Ad platform pixels, server-side tracking, platform migrations, and anything beyond the defined scope requires a separate agreement.

CHANGES & REVISIONS

Changes to agreed deliverables after commencement may be subject to additional fees at $150/hr USD.

VALIDITY

This agreement is valid for 30 days from the date on the cover. Pricing is subject to change after expiry.
